As you pull into 5948 Taralga Road, an establishing tree lined driveway leads you to what appears to be a 'quaint' looking cottage. Don't be fooled though as behind its facade is an expansive modern offering that is perfect for your next family home, as a weekend escape / hobby farm or an income generating opportunity as an amazing country Airbnb!

When stepping into the warmth of this home, an inviting and conveniently separate mudroom with under bench storage allows for the mess of a hard day's work or farm fun to be left behind on the tiled floor of this light filled room prior to entering this lovely home.

The first lounge room you will enter is spacious and a great place to sit back and relax. The wood fire ensures the cool Winter nights are kept warm while the Summer nights are kept cool by the Reverse Cycle Air Conditioner. The genuine wool carpet only accentuates the comfort and warmth found as you walk through the door.

As you make your way out to what can only be described as an "entertainer's kitchen", you will be pleasantly surprised by the fit-out that meets you. Cooking for the biggest of groups is a breeze with the 2 Stainless Steel, Self-Cleaning BOSCH electric ovens and the SMEG 4 burner gas cooktop. The country style kitchen has a combination of white cabinetry and stone bench tops, floating floorboards and includes plumbing to the fridge space for large modern fridges with built-in water dispensers. In addition to the already extensive amount of storage, there is the Walk-In Pantry with an abundance of space for food and appliances!

Off the kitchen is the 2nd living room that has views overlooking 1 of 3 large dams that the property has to offer, allowing you to invite the countryside onto your home as you entertain or sit back and relax by the Rinnai gas log fireplace in Winter or in the cool of another Reverse Cycle Air Conditioner in Summer

Off the dining area is an intimate sunroom / toy storage / playroom / reading corner that can also be used as a home office with a view.
